

Forest Society and colonialism / Date: / /

- Forest provide us many products which are great importance for human being.
- It supports a large variety of flora and fauna such as in Amazon Forest or in the Western Ghats.

→ Deforestation: The disappearance of forest is referred to as deforestation.

cause of Deforestation in India

(1) Land to be improved:

- Forests were unproductive, therefore British brought them under cultivation so that they could increase the income of the state.

(2) Building Ships:

- By the 1830s, In India Trees were cut down and exported to England for building royal ships.

(3) Railway Tracks:

- Wood was needed for railways as:

- Fuel for Trains.
- Railway lines sleepers which were NCERT Point

essential to hold the tracks together.

(4) Plantations:

- Large areas of natural forests were also cleared for tea, coffee and rubber plantations to meet Europe's growing need for these commodities.

→ The Rise of commercial Forestry:

- British made a German expert, Dietrich Brandis, the first Inspector General of forest in India.
- Brandis set up Indian Forest Service in 1864 and helped formulate the Indian Forest Act of 1865.
- The Imperial Forest Research Institute was set up in Dehradun in 1906.
 - Scientific forestry was taught there
 - In the scientific forestry system, forests with different kinds of trees were replaced by plantations.
 - Forest management plans were made by Forest Officials. They planned & how much of the forest had to be cut and how much had to be replanted.
- The Forest Acts divided forest into:

Date: / /

- Protected Forests: villagers can enter these forest but with permission.
- Reserved Forests: These were the best forests. Villagers could not enter these forests.
- Village Forests: The villagers were dissatisfied with the Forest Act. They were now forced to steal wood from the forests. If they were caught they were punished.

→ How Forest effects life of people?

What is Shifting cultivation?

- The area is cleared for cultivation for a period of time after that it left uncultivated so it could gain fertility.
- The colonial foresters did not favour this system as it made it difficult for the government to calculate Taxes. There is a danger of fire and also that no trees could grow on this kind of land.

→ Consequences of banning Shifting cultivation

- Some people changed occupation.

- Some people resisted through large and small rebellions.

→ Who could Hunt?

- The Forest Laws forbade the villagers from hunting in the forests but encouraged hunting as a big sport.
- They felt that the wild animals were savage, wild and primitive, just like the Indians Society and that it was their duty to civilize them.

→ New Trades, New Employment and New Services

- Forest communities rebelled against the changes imposed upon them.

→ The people of Bastar:

- Bastar is in the south of Chhattisgarh.
- The initiative was taken by the Dhurwas of the Kanger Forest where reservation first took place.
- The new law reserved two-third of the forest in 2005.
- The British send troops to suppress the

rebellion.

- It took them three month to regain control.
- A victory of the people of Bastar was that the work on Reservation was suspended and the area was reduced to half of that planned before 1910.

→ change in Java :

The Kalangs :

- They Rose in rebellion against the Dutch in 1770 but their uprising was suppressed.

→ Scientific Forestry in Java :

- Forest Laws were enacted in Java.
- The villagers resisted these laws.
- Forest timber was used for ships and railways Sleepers
- Dutch government used the 'balandongdiensten' system for extracting free labour from the villages

→ Samin's Movement :

- Around 1890, Samin of Randublatung villages (a teak Forest village) questioned the state ownership of forest.
- A widespread movement spread.
- They protested by lying on the ground when the Dutch came to survey it and refusing to pay taxes and perform labour.

→ World Wars and Deforestation :

- The world wars had a major Impact on Forest.
- The Forest department cut freely to meet the British Demand.
- In Indonesia, the Dutch destroyed sawmills and burnt huge piles of teak logs.
- The Japanese after occupying Indonesia exploited the forests recklessly for their war needs.
